TOUCHSUITE RESTAURANT FEATURES

TouchSuite has an extensive array of easy to use features that can be configured to adapt to all hospitality environments from fine dining to concession stands. TouchSuite is designed to walk staff through the order process, increasing accuracy, efficiency, and speed of service. TouchSuite provides customer relationship functionality that allows you to manage your customers and their spending habits. All call in orders are saved into a database allowing you to see order frequency, date of last order, items ordered, and personal information. By bringing your POS and CRM together, you will be able to track your customers' spending, offer coupons based on habits and use direct marketing.

AN AFFORDABLE POS SOLUTION THAT HELPS YOU RUN AND GROW YOUR RESTAURANT.

The TouchSuite Restaurant POS comes complete with all the equipment you need to get started: touch screen terminal with card reader, integrated receipt printer, cash drawer, keyboard and restaurant software.
